

ICHIGO.VIENNA – A TRIBUTE TO THOUGHTFUL DESIGN

The hand-blown, lead-free crystal glasses, vessels, and vases from the heart of European glassblowing art are precious, full of inspiration, loving details, and functional sophistication. Each piece is unique and is blown by master craftsmen in wooden or metal molds, demonstrating skilled craftsmanship.

- * inspired by the shape of a strawberry
- * designed for life's special moments
- * the dimpled design prevents unsightly fingerprints
- * characterized by a connection to nature and the balance of Far Eastern aesthetics
- * perfected in the stronghold of European glassblowing art in the Czech Republic

"Special moments deserve more than the ordinary."
(Martina Zupanc Oberdorfer)

ICHIGO.Vienna is synonymous with high-quality glassware — simple elegance, timeless design, and true craftsmanship. The journey of founder and designer Martina Zupanc Oberdorfer began with the ICHIGO.Coupette collection: signature glasses for champagne and cocktails, artfully uniting aesthetics and function.

ICHIGO.Coupette Collection

A symbiosis of sophisticated design, masterful craftsmanship, and timeless elegance. Each mouth-blown glass is unique: the textured surface sparkles in the light, fits comfortably in the hand, and invites you to celebrate every sip. The dimpled design prevents unsightly fingerprints.

Ideal for spontaneous moments of joy to celebrate life: champagne breakfast in bed, picnic in the countryside, or „champagne to go“.

1. ICHIGO.Coupette No. 1 Champagne/Crystal (125 ml up to the last nubs)

The delicate, petite bowl — perfect for Champagne, Crémant, Prosecco, Franciacorta, or sparkling wine. Ideal for unscripted toasts to life's most beautiful moments.

2. ICHIGO.Coupette No. 2 Cocktail/Crystal (300 ml up to the last dimples)

Classic in long drink size yet strikingly unique — featuring the signature ICHIGO.Vienna dimples. Perfect for aperitifs, mixed drinks, mocktails, and more. Fits comfortably in the hand, adding a touch of distinction to every drink.

3. ICHIGO.Bloom No. 1 Vase & Decanter

The ICHIGO.Vienna Vase & Decanter in Crystal, Citrine, Rosalin, and Light Blue perfectly rounds off the Signature Collection. The striking bulbous shape is modeled on an enlarged knob and offers high stability despite its enormous lightness. The play of reflections and colors in the light meets the highest standards of function and design.

What makes ICHIGO.Vienna so special?

- * Strawberry Charm — the textured surface is reminiscent of the delicate texture of a strawberry. Playful and sophisticated — no unsightly fingerprints.
- * East meets West — inspired by Asian table culture and European champagne coupes.
- * Elegance meets everyday life — no stem, but plenty of style. Dishwasher safe, suitable for everyday use, no visible fingerprints, and space-saving.
- * Genuine craftsmanship — made in the stronghold of European glassblowing in the Czech Republic.

Hand-blown glass — craftsmanship with soul: every glass is a work of art.

Every breath, every movement of the hand creates a unique piece — tangible, visible, one of a kind. Fine structure, perfect balance, fascinating play of light — that's what makes the difference. And every glass bears the signature of its creator. With pride.

A look behind the scenes — the art of glassblowing

- * An independent, environmentally friendly, and sustainable manufacturer that continues the great tradition of glassmaking with respect and reverence for its history.
- * True craftsmanship has become rare. But it lives on in the products of ICHIGO.Vienna — through the knowledge of experienced masters and the passion of a new generation of glassblowers.
- * Every ICHIGO.Coupette glass is the result of dedication, experience, and the highest precision.
- * The glass mass is carefully prepared overnight so that it can be processed to perfection early in the morning.
- * Precision from the very beginning — the initial shaping determines the thickness and structure.
- * Masterful technique — every breath, every turn gives the glass its unmistakable elegance and at the same time completes its characteristic structure.
- * Perfection takes time — each individual glass is slowly cooled overnight and then refined.
